Privacy Policy

The following outlines our Privacy Policy.

When accessing our Site, CapTech will learn certain information about you during your visit.

Similar to other commercial web sites, our Site utilizes a standard technology called "cookies" (see explanation below, "What Are Cookies?") and web server logs to collect information about how our Site is used. Information gathered through cookies and web server logs may include the date and time of visits, the pages viewed, time spent at our web site, the web sites visited just before and just after our web site, and your IP address.

What Are Cookies?

A cookie is a very small text document, which often includes an anonymous unique identifier. When you visit a web site, that site's computer asks your computer for permission to store this file in a part of your hard drive specifically designated for cookies. Each web site can send its own cookie to your browser if your browser's preferences allow it, but (to protect your privacy) your browser only permits a web site to access the cookies it has already sent to you, not the cookies sent to you by other sites.

IP Addresses

IP addresses are used by your computer every time you are connected to the Internet. Your IP address is a number that is used by computers on the network to identify your computer. IP addresses are automatically collected by our web server as part of demographic and profile data known as "traffic data" so that data (such as the Web pages you request) can be sent to you.

Email Information

If you choose to correspond with us through email, we may retain the content of your email messages together with your email address and our responses. We provide the same protections for these electronic communications that we employ in the maintenance of information received online, mail and telephone.

How Do We Use the Information That You Provide to Us?

Broadly speaking, we use personal information for purposes of administering our business activities and providing client service.

CapTech will not obtain personally-identifying information about you when you visit our Site, unless you choose to provide such information to us, nor will such information be sold or otherwise transferred to unaffiliated third parties without the approval of the user at the time of collection.

We may disclose information when legally compelled to do so, in other words, when we, in good faith, believe that the law requires it or for the protection of our legal rights.

How Do We Protect Your Information and Secure Information Transmissions?

Email is not recognized as a secure medium of communication. For this reason, we request that you do not send private information to us by email. However, doing so is allowed, but at your own risk. Some of the information you may enter on our Site may be transmitted securely via a secure medium known as Secure

Sockets Layer, or SSL. Credit Card information should never be transmitted via email.

CapTech may use software programs to create summary statistics, which are used for such purposes as assessing the number of visitors to the different sections of our Site, what information is of most and least interest, determining technical design specifications, and identifying system performance or problem areas.

For site security purposes and to ensure that this service remains available to all users, CapTech uses software programs to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage.

DoubleClick

We may place pixels from DoubleClick, or other ad serving platforms in order to collect first-party cookie data for use with ad retargeting. This allows us to provide targeted advertising in the future. If you do not wish to receive this type of advertising from us in the future, you can opt out using the DoubleClick opt-out page or the Network Advertising Initiative opt-out page.

Policy Changes

We reserve the right to amend this privacy policy at any time with or without notice. However, please be assured that if the Privacy Policy changes in the future, we will not use the personal information you have submitted to us under this Privacy Policy in a manner that is materially inconsistent with this Privacy Policy, without your prior consent.

We are committed to conducting our business in accordance with these principles in order to ensure that the confidentiality of personal information is protected and maintained.
